Evergreen Shrubs grow about
the same as Baby Evergreens;
and can be used successfully
in mixed plantings, adding
color and beauty throughout
the year.

Baby Evergreens, Evergreen
Transplants, Evergreen shrubs,
& Evergreen Seedlings do very
well in good garden soil.
They require very little care.
Commercial fertilizer should
be applied in liquid form.

A good mulch the first winter
after planting is beneficial:
Manure--Horus--Leaves--Saw-
dust--Shavings--Straw.
